has been a Premier Metal Fabrication
Equipment Distributor
Since 1959

Full Sales and Service

THE CARLSON PLEDGE

Carlson Fabrication Solutions is committed to providing exceptional "Value-added" service to every machine sold to you our customer. We take the extra steps to ensure that each and every installation is smooth as possible. For example, we will help coordinate your rigging and freight, pre-onsite evaluation, operator and software training. In addition, we offer preventative maintenance contracts to minimize downtime and ensure that our customers get the most from their equipment investment. If your equipment ever needs a part, Carlson can order it for you.

Call our representative for a free consultation on your metal fabrication needs.

WE SERVICE WHAT WE SELL.
